## Experience

**Full Stack Developer** | [Inmet](#) | 2017 - Current

Inmet is part of the government from Brazil and is responsible, mostly, for the meteorological forecast. I was responsible for the migration of legacy systems made in php to new technologies as react and node. I also worked with React Native and made some Apps like [Inmet App](#).

**Worked with:** HTML5, CSS, JavaScript, TypeScript, PHP, Python, Scrum, Kanban, PostgreSQL, MySQL, ReactJS, Node.JS, Yii2, React Native and Adonis.JS.

**Internship Developer** | Senado Federal ([Interlegis](#)) | 2015 - 2017

I was responsible for maintenance of a learn platform called [Saberes](#) and worked in the development of the new [SAPL](#).

**Worked with:** HTML5, CSS, JavaScript, Scrum, PHP, Moodle, Python, PostgreSQL and Django.

**Internship Developer** | [BEPiD](#) | 2014

BEPiD is an initiative of Apple with the university to bring more iOS developers to job market. There you are prepared for one year through a course and challenges where you need develop apps.

**Worked with:** Objective-C
