Experience

Full Stack Developer | Inmet | 2017 - Current

Inmet is part of the government from Brazil and is responsible, mostly, for the meteorological forecast. I was responsible for the migration of legacy systems made in php to new technologies as react and node. I also worked with React Native and made some Apps like Inmet App.

Worked with: HTML5, CSS, JavaScript, TypeScript, PHP, Python, Scrum, Kanban, PostgreSQL, MySql, ReactJS, Node.JS, Yii2, React Native and Adonis.JS.

Intership Developer | Senado Federal (Interlegis) | 2015 - 2017

I was resposible for maintenance of a LMS called Saberes and worked in the development of the new SAPL.

Worked with: HTML5, CSS, JavaScript, Scrum, PHP, Moodle, Python, PostgreSQL, Docker and Django.

Intership Developer | BEPiD | 2014

BEPiD is an initiative of Apple with the university to bring more iOS developers to job market. There I was prepared for one year through a course where I needed to develop apps.

Worked with: Objective-C
