About Me

Full Stack Software Engineer with 10+ years of experience building web and mobile applications using React, Node.js, NestJS, Next.js, Python, and TypeScript. Skilled in REST API design, relational and non-relational databases (PostgreSQL, MySQL, MongoDB), and cloud infrastructure including AWS (S3, Lambda, EC2) and Azure AD. Experienced with CI/CD pipelines (Docker, GitHub Actions) and Agile/Scrum/Kanban delivery across enterprise, telecom, and public-sector projects, including legacy system migrations and platform internationalization. Native Portuguese speaker, fluent in English (C1).

Professional Experience

FullStack Software Engineer | Glintt Global (Galp) | Lisbon, Portugal | November 2025 - Present

- Built and shipped fullstack features with Next.js and NestJS, improving load performance and maintainability across customer-facing modules.
- Standardized data access with Prisma across MongoDB, PostgreSQL and MySQL, reducing query-related bugs and speeding up new-feature delivery.
- Automated backend workflows with Python Lambdas on AWS, cutting manual file-processing effort.
- Managed scalable file storage/processing pipelines via S3, supporting growing data volume without infrastructure rework.
- Kept sprint delivery predictable via Confluence documentation and Jira backlog management, improving team visibility.
- Tech: Next.js, NestJS, Prisma, MongoDB, PostgreSQL, MySQL, AWS S3, AWS Lambda, Python, TypeScript, Confluence, Jira.

Frontend Specialist | TEKsystems (Vodafone UK) | Remote | Jun 2025 – Oct 2025

- Migrated the Device Lifecycle Management (DLM) platform to React, improving UI performance and maintainability over the legacy stack.
- Delivered German-language internationalization (i18next), expanding platform usability into a new regional market.
- Integrated Azure AD authentication, strengthening session security and aligning the platform with enterprise identity standards.
- Tech: React, TypeScript, JavaScript, HTML, CSS, REST API, i18next, Agile (Scrum/Kanban), Azure AD.

FullStack Software Engineer | Integer Consulting | Lisbon, Portugal | May 2022 – Jun 2025

- Pairpoint: Built a product showcase system end-to-end (React/TypeScript + Python/Tornado) deployed on AWS EC2, giving Pairpoint a scalable customer-facing catalog.
- Vodafone Portugal: Developed Python migration scripts for Vodafone Portugal's AEM page migration, preserving data integrity and reducing manual QA effort.
- Vodafone Portugal: Built reusable AEM/Vue.js components for Vodafone Portugal's corporate site, speeding up delivery of new pages and ensuring UI consistency.
- Tech: React, Vue.js, Python, Tornado, TypeScript, JavaScript, AEM, HTML, CSS, REST API, Agile, AWS.

FullStack Developer | INMET – Instituto Nacional de Meteorologia | Brasília, Brazil | May 2017 – Mar 2022

- Led migration of legacy PHP systems to React and Node.js, modernizing INMET's public meteorological platforms.
- Built the INMET mobile app with React Native, extending weather-forecast access to mobile users across Brazil.
- Designed and maintained public REST APIs serving meteorological data to external systems and citizens.
- Migrated legacy records to PostgreSQL/MySQL via custom Python scripts, preserving historical data integrity.
- Tech: React, Node.js, React Native, Redux, Context API, PHP, Python, PostgreSQL, MySQL, Agile.

Internship Web Developer | Senado Federal – Interlegis | Brasília, Brazil | Mar 2015 – Mar 2017

- Maintained the Saberes LMS supporting legislative training programs.
- Co-developed the new SAPL system (Django/Python) as part of a 5-person Scrum team, contributing to a legislative management tool used across Brazilian municipalities.
- Tech: Django, Python, Docker, PostgreSQL, HTML5, CSS, JavaScript, PHP.

Internship iOS Developer | BEPiD (Apple Program) | Brasília, Brazil | Jan 2014 – Dec 2014

- Developed iOS applications in Objective-C during Apple's year-long BEPiD developer training program.
- Tech: Objective-C.

Education

- Bachelor of Computer Science | Universidade Católica de Brasília | 2013 – 2018

Languages

- Portuguese: Native
- English: C1 (Advanced – Reading, Writing, Listening, Speaking)

Core Skills

- **Frontend:** React, Next.js, Vue.js, React Native, Redux, Context API, TypeScript, JavaScript, HTML5, CSS3, Sass, i18next
- **Backend:** Node.js, NestJS, Python (Tornado, Django), AdonisJS, PHP, REST APIs
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Cloud & DevOps:** AWS (EC2, S3, Lambda), Azure AD, Docker, GitHub Actions, CI/CD
- **Methodologies:** Agile (Scrum/Kanban), Legacy System Migration, Internationalization (i18n)
